

International Federation of Aromatherapists

Past and Present IFA Schools

This is a list of our past and present IFA schools by name and country, which we will continue to update. If you have attended one of our schools please provide us with a certificate (if over five years ago). If you have undertaken a course at one of these schools you will need to tell us the year in which you took the course and provide evidence, so we can make sure the course was accredited by the IFA at that time.
